

# PCI Certification Service

## \$149/yr. full-service program:

- + Scheduled quarterly and unlimited manual scans of 6 domains or IP addresses
- + Full vulnerability remediation support from CISSP certified security specialists
- + Assistance completing your self-assessment questionnaire
- + Assistance preparing your required PCI compliant security policy
- + Unlimited telephone technical support
- + Auto-submit compliance reports directly to your bank
- + Add additional domain names or IP addresses at \$10 each
- + Upon completion you are issued a Certification of Compliance accepted by all credit card companies and all banks worldwide. There are no additional services needed, and no additional fees.
- + Organizations with more than 6 million transactions per year require an on-site audit and should call 866-884-7226 for more information.

## The World's Leading PCI Security Certification Service

In response to the overwhelming number of credit card data thefts by hackers, Visa and MasterCard have developed the Payment Card Industry (PCI) Data Security Standard. This standard is also being enforced by American Express, DiscoverCard and JCB. It must be implemented by all merchants and their web hosts, shopping cart vendors and payment service providers. Those who do not face fines of up to \$500,000 and the possibility of being barred from accepting credit card payments.

As the largest web site security certification service, ScanAlert was selected by Visa International to be the exclusive provider of Visa-branded PCI/AIS validation services in over 70 countries.

We currently operate co-branded PCI compliance programs, through partners such as Visa, PayPal, CyberSource and the U.S. Council of Better Business Bureaus, to manage the enrollment of more than 250,000 merchants and third-party service providers worldwide.

### Making PCI Compliance Easier, Faster

Working directly with Visa and MasterCard, ScanAlert has developed a unique, accurate and easy-to-use online "PCI Wizard" that makes PCI compliance more affordable and more reliable for merchants of all sizes. This service, available only through ScanAlert and our partners, automates completion of your self-assessment questionnaire (SAQ), automatically initiates quarterly scans for vulnerabilities and generates the necessary PCI compliance reports and documentation. Unlimited telephone and online technical support is also provided.

ScanAlert's PCI compliance certification meets the requirements of Visa's CISP and AIS, MasterCard's SDP, American Express' DSS, DiscoverCard and JCB.

### Cost-effective - Reliable - Easy-to-use

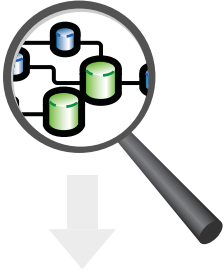

ScanAlert's full-service PCI certification program is designed for organizations with less than 6 million payment card transactions per year. The complete program is just \$149 per year, including scanning up to 6 IP addresses, assistance meeting all other requirements and full technical support. Additional IP addresses are only \$10 per year each.

Our user-friendly web-based PCI Wizard allows you to quickly complete all requirements with confidence. The program provides step-by-step guidance, real-time analysis of your compliance status and alerts when requirements are due. You will also receive unlimited online and telephone support from our staff of certified security professionals.

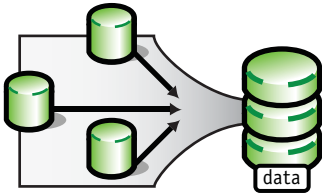

### PCI Compliance in 3 Easy Steps

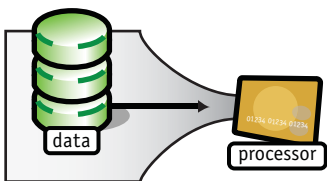

#### 1. Find the Data

#### 2. Centralize Data Into One Location

#### 3. Move Location of Data Storage to Your Payment Processor

## The PCI Compliance Program is 100% Guaranteed:

Our thousands of satisfied customers span small businesses, Fortune 500 corporations, government agencies and non-profit institutions. If we don't supply you with all of the services you require to successfully complete the program we will refund all fees. You can rely on ScanAlert's experience.
